Instructions: Since you have recently completed an extensive report for the extension of the program, the semester report can be brief: concentrate on the planned steps for the future.

The report will be reviewed by selected members of the faculty.

Rename the template file `semester-report-FACETS-2021-Name.tex` by substituting your family name for the last part. Remove the instructions and the sample text and substitute your own text.

Submit the report as a PDF-file to Ita Brunke (i.brunke@fu-berlin.de) by October 25.
